## **DETAILED ACTION**

- 1) Acknowledgement is made of Amendment received 11/20/2007.

Claim 18 is amended and claims 25-40 are cancelled.

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

### ***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

- 2) Claims 23-24 are rejected under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Otsuji (JP 2001-353618, English version US 7,128,023, is used for the Office Action). Otsuji discloses the claimed product, a dried lignocellulose plant fiber material or pulp (col. 5, lines 22-24) mat 3 of thickness 5 to 50 mm (col. 2, lines 27-31, and Figures 1-3).

In the event any differences can be shown for the product of the product-by-process claims 23-24, as opposed to the product taught by the reference Otsuji, such differences would have been obvious to one of ordinary skill in the art as a routine modification of the product in the absence of a showing of unexpected results; see also In re Thorpe, 227 USPQ 964 (Fed. Cir. 1985).

### ***Allowable Subject Matter***

3) The following is a statement of reasons for the indication of allowable subject matter:

The primary reason for indication of allowable subject matter is that the cited prior art does not show: a method of making a formed, dried lignocellulose fiber material **consisting of** providing a lignocellulose fiber pulp slurry of an effective consistency, de-watering said slurry by applying a compression pressure under an effective pressure to prevent or reduce the formation of fissures and voids within said material, and drying the de-watered material at a temperature and pressure to form a shape having a thickness claimed (claims 1-11, 13-22).

### ***Response to Amendment***

4) Claims 18-22, 25-26 rejection under 35 U.S.C. 112, second paragraph, is withdrawn in view of amended claim.

5) Claim 39 rejection under 35 U.S.C. 103(a) as being unpatentable over Betzner in view of Shepard or in view of Otsuji, is withdrawn in view of cancelled claim.

- 6) Claim 40 rejection under 35 U.S.C. 103(a) as being unpatentable over Betzner in view of Otsuji, is withdrawn in view of cancelled claim.
- 7) Allowable subject matter of claims 23-24 is withdrawn in view of further consideration of the prior art..
